

CWT Linear Cutter

Trimmer for flexible and rigid materials

Info

CWT Linear Cutter is perfect for trimming soft and flexible substrates such as vinyl and banners, and also a variety of rigid and semi-rigid materials such as boards, including extruded PVC, corrugated plastic and foam board. CWT Linear Cutter can be used on any worktable and the new End caps pro is featuring built-in lifting functionality for enhanced usability.

Cuts a variety of substrates:

- Flute board
- Gator board
- Cardboard
- Extruded PVC
- Magnetic sheets
- Laminates
- Banners
- Canvas
- Leather
- Rubber
- Textiles
- Vinyl
- Mesh
- Paper
